[How to read this report](#)

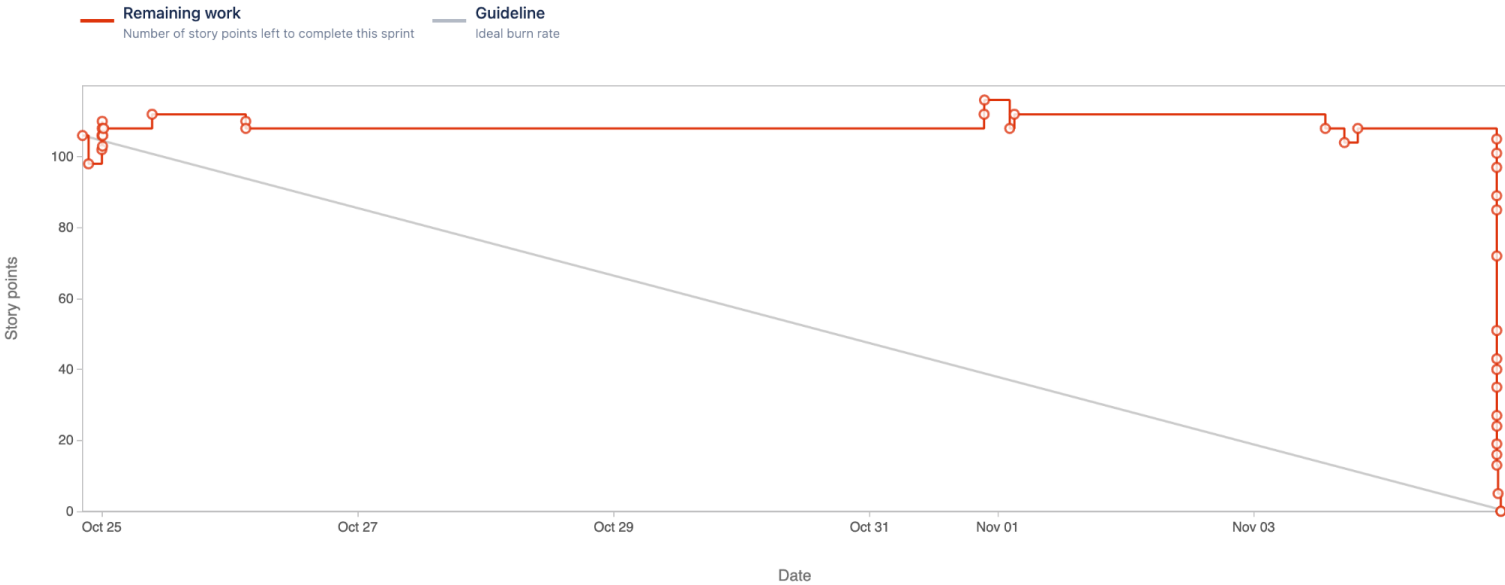

Burndown Chart

Sprint: BRAV Sprint-3

Estimation field: Story points

Date - October 24th, 2022 - November 4th, 2022

Questions:

- **Compare the planned velocity with the previous sprint velocity**
 - Regarding the Sprint Velocity, our record stays undefeated; we basically completed everything we pledged to complete. Few tasks which were not started and moved to Sprint-4.
 - In terms of completion, we finished 59 last time and 52 this time, which is just because tasks for this Sprint were a lot of time-consuming than the last time.
 - Overhauling, we are moving on a very good road to finishing this project.
- **Explain why your velocity did change (or why it did not change)**
 - Velocity did not change much; the only number of completed changed
 - The whole team is working hard to put the final task in.
 - The reason for not changing much is that we stayed with student life's heat and pressure.
 - Only committed to the important task and kept up with each other.

Because of the shift, story points reset, so we started sprint-1 before estimating, so the Graph is not fully accurate.
